

Sustainable production through market penetration of closed loop technologies in metal finishing industry

Three policy dialogues were held in New Delhi, Pune and Chennai, as per the schedule given below.

Region	Date	City
North	21-Aug-12	New Delhi
West	22-Aug-12	Pune
South	25-Aug-12	Chennai

The policy dialogue was targeted at representatives from relevant government institutions, financial institutions, scientific research institutions and local industry associations. A total of 20 persons participated in the dialogues. There was unanimous agreement that the laws existing are sufficient and that technologies and know-how are readily available in India; however, the uptake of technologies and management systems is slow. It was also articulated that improved communication between the various stakeholders would be of help.
